

The Northwest Preparedness Expo

The NW Preparedness Expo will be held on May 6th, 2017 in Prosser, Washington. There will be both educational speaker sessions and vendor booths on display.

Our goal is twofold: educate our local community of the value of preparation and to build camaraderie. We support education opportunities for our community and those wanting to be prepared for misfortunes that life presents. We aim to help prepare individuals for any personal misfortune, or natural disaster. In time, we hope to build on this; if one is prepared himself, then he is one step closer to being prepared to help others. We hope to regain a sense of local responsibility and preparation in the event of any situation that might overwhelm our community's safety & well-being. That paints a broad portrait of our ultimate goal.

The 4th Annual 2017 Expo will again be held just north of Prosser in a beautiful country setting. Ultimately, our objective is to create an annual event that will grow in scope and size - with each successive year building upon the previous year's skills and goals. We wish to educate and encourage our local region to cultivate a sense of responsibility, community, and preparedness.

The Northwest Preparedness Expo

To all Vendors,

Purpose of the Expo: As we prepare for our annual expo, our primary focus is on exposing people to the benefits of being prepared; starting with a "72 hour plan," while also offering information and resources that may be helpful to those that are preparing for longer term situations. For this year's expo we have chosen five areas of focus. They are as follows; safety, shelter, skills, supplies (gear & tools), and sustenance. We wish to invite speakers and vendors (and we encourage vendors as speakers) who are skilled in these five areas.

Product Vendors: All product and information vendors are eligible to participate provided their product or information pertains to the purpose of the Expo. We reserve the right to choose the assortment of entries to help maintain a variety of topics and products for our attendees.
